ABSTRACT

Information is provided on 217 public libraries, 65 academic libraries, and 164 special libraries in Oregon, as well as the Oregon State Library. Information is compiled from questionnaires completed by each library and other directory information sources. Data elements are based on those used in the Federal State Cooperative System for Public Library Data, a national system designed to insure comparability of data between the states. Information is provided on collections and services, income and expenditures, staffing, and interlibrary loans. The section on the Oregon State Library includes information on state and federal depository libraries. Twenty-one tables present statistics about Oregon libraries, and 13 figures illustrate the state system. (SLD)

Introduction

*The **Directory and Statistics of Oregon Libraries 1992** provides information on 217 public libraries (main libraries and branches), 65 academic libraries, and 164 special libraries in the state, as well as information on the Oregon State Library. The directory information is compiled from questionnaires sent to each library and from other directory information sources. The statistics are also compiled from questionnaires received from the libraries in the fall of 1992. All of the libraries report statistics according to their own organizational year, which in the case of all of the public libraries and most of the academic libraries, ran from July 1, 1991 to June 30, 1992.*

*The data elements collected from the public libraries were based on the Federal State Cooperative System for Public Library Data (FSCS) of the U. S. Department of Education, National Center for Education Statistics. This national reporting system is designed to insure comparability of data between all 50 states, and will result, for the third time, in a comprehensive national database of public library statistics. As the **Directory and Statistics of Oregon Libraries 1992** was going to the printing division, a pre-publication copy of **Public Libraries in the United States: 1991** was released. Comparisons between Oregon libraries and those in other states will be highlighted in upcoming issues of the State Library's online newsletter, **Letter to Libraries Online**.*

The academic library statistics were collected using the "Academic Libraries Survey" of the U. S. Department of Education's Integrated Postsecondary Education Data System (IPEDS). The IPEDS data is reported to the National Center for Education Statistics and will result in the biennially produced national report of academic library statistics.

The special library statistics were collected using a questionnaire adapted from IPEDS, which was developed with the assistance of a committee of the Oregon Chapter of the Special Libraries Association. A total of 80 special libraries submitted statistics this year, an increase of 4 libraries over the previous fiscal year.

*In addition to their library statistics, public libraries filled out a supplementary report on "Library Facilities and Library Technology: 1992." The facilities and technology data is not included in the **Directory and Statistics of Oregon Libraries 1992** but will be used to document Oregon's continuing need for construction grant assistance from the Library Services and Construction Act, and to report on the status of library automation. All of the statistical data that were submitted to the State Library are maintained in a computer database. The database was used to generate the statistical sections of this publication. Not all of the data are published, but only the data that we feel to be the most important and the most useful. We would welcome requests for any of the statistical data that we maintain, and are glad to generate special statistical reports to meet specific needs.*

*As always we would be pleased to receive any suggestions for improvements to the **Directory and Statistics** which would serve to make it a more useful publication.*

For those of you who might be interested in the production of this document, a technical note: The State Library uses Apple Macintosh computers and Microsoft Excel software to maintain its database of library statistics. The publication itself involved the use of the Macintosh and Microsoft Excel, in addition to Microsoft Word, Cricket Graph, and SuperPaint. Copy production utilized an Apple LaserWriter Pro printer.

Part 1.2 Governance of Oregon Public Libraries

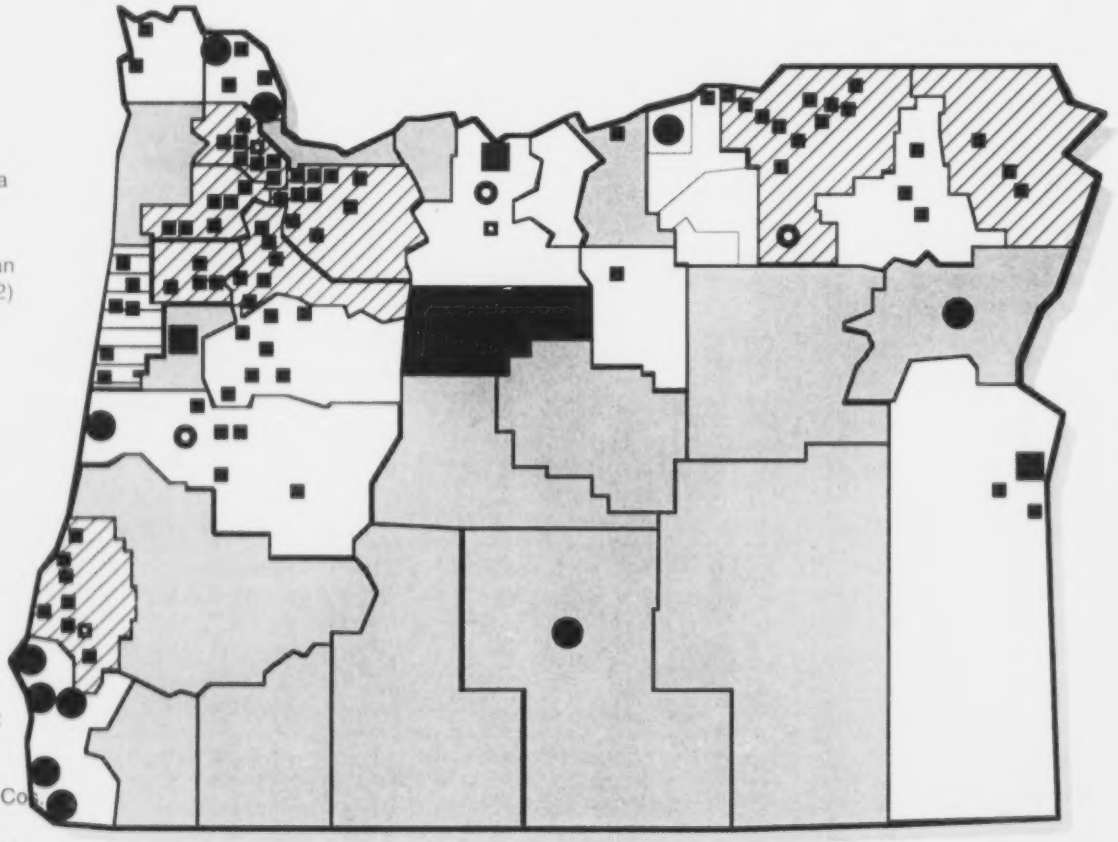
- Consolidated county libraries administered by counties. (12)
- Consolidated county library administered by a special library district. (2)
- Consolidated county library administered by a city under contract with a county. (1)
- Consolidated county library administered by a non-profit corporation under contract with a county. (1)
- Libraries administered by cities and serving an entire county under contract with a county. (2)
- Libraries administered by cities. (85)
- Libraries serving areas smaller than a county administered by special library districts. (9)
- Libraries administered by school districts. (3)
- Libraries administered by non-profit corporations receiving funds under contract with a county or district. (3)
- Special library district contracting with city libraries for library services to district residents. (1)
- Cooperative library systems administered by:
  1) counties (in Clackamas, Washington, Wallowa Cos.) (3)
  2) community college district (in Polk, Marion Co and in portions of Linn and Yamhill Cos.) (1)
  3) special library district (Umatilla Co. excluding Hermiston) (1)
  4) county service district (Coos Co.) (1).



Note: The number in parentheses in the key refers to the number of libraries in that category. The total number of legally-established public libraries at the end of 1992 was 125.

Comparisons of Oregon Public Library Statistics Combined by County

Presented on the next four pages are comparisons of public library statistics by county. The data on which the comparisons are based was calculated by combining a given statistic for all of the public libraries or library cooperatives or systems within one county and dividing the result by the total county population (July, 1991). The purpose of this analysis is to be able to make a broad county-by-county assessment of library resources and services in the state. For all but one of the sixteen consolidated county library systems in Oregon (Baker, Benton, Crook, Deschutes, Douglas, Gilliam, Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Multnomah, Tillamook) the "combined" statistics are identical to their system statistics presented in Part 1.4 of this publication. The exception is Gilliam County which also has a city library in Arlington. For the remaining counties, please bear in mind the fact that the data for all of the independent libraries in the county are combined to arrive at the composite county figure. The combined county figure for these libraries may or may not reflect the services and resources of an individual library within a county. Statistics for the Chemeketa Cooperative Regional Library Service were omitted from the data due to the fact that CCRLS serves parts of four counties (Polk, Yamhill, Marion, Linn), and their statistics cannot be broken down by county. Also, in arriving at the data for the number of volumes of library materials per capita, a title count was substituted for a volume count in cases where a volume count was not available.
